

Vid bedömning

This site is using the standard WordPress Theme Unit Test Data for content. The Theme Unit Test is a series of posts and pages that match up with a checklist on the WordPress codex. You can use the data and checklist together to test your theme.

WordPress Theme Development Resources

1. See [Theme Development](#) for [code standards](#), examples of best practices, and [resources for Theme development](#).
2. See [Theme Unit Test](#) for a robust test suite for your Theme and get the latest version of the test data you see [here](#).
3. See [Theme Review](#) for a guide to submitting your Theme to the [Themes Directory](#).
